AdUp Native Retargeting

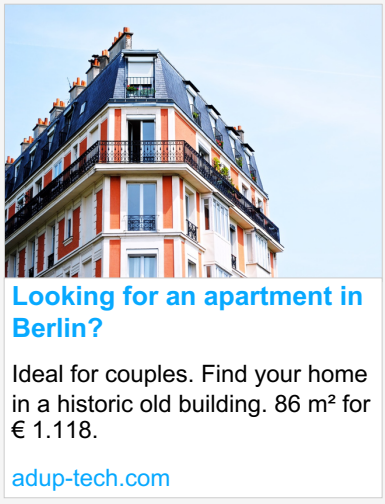
Reach customers who haven't made conversions yet

AdUp Native Retargeting allows you to address your previously unconverted custormers again – easily, dynamically and with high conversion rates.

As an individual or supplementary campaign, your creatives will be displayed in example on the exclusive AdUp native placements.

The CPC based accounting model allows a selective control of your spending.

Our slim version offers you an easy introduction. For more detailed purposes, please use our Pro version.



Looking for an apartment in Berlin?

Ideal for couples. Find your home in a historic old building. 86 m² for € 1.118.

adup-tech.com

JavaScript tracking pixels are integrated in the website to tag relevant users for retargeting.

The basis for dynamic retargeting is your product feed with all relevant products & further information.

Placeholders are used to dynamically generate ads. Texts & images are replaced with content from your feed.
